ONLINE CLASSROOM

YOU NEED

A flexible, practical solution to your employees' study, with all the support of a structured classroom-based course.

WE PROVIDE

A market-leading approach to online learning, enabling students to study in their own time and at their own pace. Plus we provide detailed guidance documents written by classroom tutors, and regular, proactive tutor support to ensure your employees have the support they need to pass first time.

KEY BENEFITS

- 1 Employees can study at a time, place and pace to suit their working schedule**
- 2 We provide guidance from a dedicated tutor, ensuring students remain motivated and time spent out of the office is maximised**
- 3 Students receive all the support of face-to-face classroom learning, and can also switch between online and physical learning materials — which is proven to be one of the most successful ways to study**

OVERVIEW

BPP's Online Classroom is designed to offer students the support and structure of our most successful face-to-face classroom courses, with the flexibility of a distance learning programme. Just like our classroom courses, it's based around our 3 steps programme, which outlines the necessary Steps to Success. We guide students through the syllabus, review and recap to ensure knowledge is embedded, and then give them lots of practice to develop exam skills and techniques.

FLEXIBILITY, SUPPORT AND SUCCESS

Studying online doesn't mean studying alone. Each Online Classroom course has a start date, so you'll always be working alongside other students, who you can chat to and learn from in our online community. You'll also be assigned a tutor who will provide guidance from the start of your programme through to your exam, ensuring you have the support you need to pass first time.

You can log into the Virtual Learning Environment (VLE) anywhere. Your course content is split down into manageable volumes of work, and you'll also be able to access online lectures, guidance documents, questions banks and mock exams. Furthermore, you can also switch between online and physical learning materials, which is proven to be one of the most successful ways to study. To help you keep on track and check your progress, we'll also provide performance reports, so you can see how you're doing in comparison to other students.

CLIENT CASE STUDY

"A true partnership with BPP was established for the Shell account. The BPP Account Management team takes ownership of any issues that arise and doesn't rest until they are resolved. They have a forward looking, positive and friendly attitude and are focused on continuous improvement.

The BPP offering is competitively priced when taking into account the high value of the Online Classroom product as well as the dedicated support received at all times."

— Shell

STUDENT INSIGHT

"I like the fact that pre-recorded videos allow you to learn at the location and timing of your convenience. The email reminders from the tutors help to make sure you are on track too."

"I think it's best to learn bit by bit, instead of cramming just before the exams. The Online Classroom helps as I can always re-visit any online materials, so I do not have to scribble down every word in a notepad from the lectures. Secondly, it is a must to cover a whole syllabus, not only concentrating on main topics."

"When you stay connected with other students, it helps to remember you're not alone. It keeps you motivated and on track."

— BPP Online Classroom students

COMMERCIAL BENEFITS

Flexibility — Pre-recorded lectures enable students to log in anytime, anywhere and access their study materials. Students can also pause, rewind and fast forward lectures, allowing them to study at their own pace. This flexibility is suitable for clients that may find it difficult to release students for weekday lectures during busy periods

Consistency — For clients that have multi-site global locations, the Online Classroom ensures that all students study the same content and have the same structure when preparing for exams. The consistency in course delivery is helpful to a company's study policy, which results in ease for benchmarking students in different departments

Support — All students are assigned a BPP tutor- a subject specialist who is there to guide and assist them in their learning . Regular, proactive emails also ensure students stay motivated, their learning remains efficient, and that they maximise any time spent out of the office

Resources — BPP provide students with a library of online and physical study materials from BPP Learning Media, a market-leading publisher of targeted study materials for professional exams and business reference

Experience — With over 35 years' experience in the training market, we have harnessed all the knowledge and best practices of our classroom courses to design and develop a market-leading Online Classroom

Detailed Reporting — BPP provides management information and reporting on students' progress, from exam results to individual usage of online resources*. This will assist Training Managers in monitoring the progress of their students

Student Networking — As all students globally study in a cohort, per paper, they can network through our online forum with other BPP students around the world — their virtual 'class'

BPP's Pass Assurance — We are so confident that delegates will pass with us, we allow them to attend a course for free if they do not pass their first attempt**

* On a client by client basis only

** We are so confident that students will pass with us, we allow our classroom students to attend a course for free if they do not pass their first attempt. Terms and conditions apply

YOUR ORGANISATION'S AMBITIONS REALISED

With over 35 years' experience and a track record of outstanding exam success and customer satisfaction, BPP is a long-trusted partner to many of the world's leading organisations. In fact, we work with over 75 of the FTSE100 companies. We were also the first publicly-owned private sector company to be given degree awarding status — a powerful endorsement of the quality service we provide.

Our courses can be tailored to provide the specific skills and knowledge your employees need for their current role, or to help them progress within your organisation. We'll also provide a flexible training solution to suit you, with full-time, part-time and distance learning options and a wide variety of course dates. Learners can study at one of our international or UK centres, or we can run courses from the convenience of your own premises.

Our focus on quality learning and educational material is what sets us apart. What's more, the pass marks of our students across the globe are testament to the quality of our teaching experience and skills. Whatever your company's size or goals, our training schemes are designed to help you realise ambitions.
